

Volunteer Role Players Needed!

HELP the WV Department of Administration, the WV Department of Military Affairs and Public Safety and the Kanawha-Charleston Health Department to **exercise their emergency medical dispense response capabilities!**

When: September 16, 2015

Where: Capitol Complex, Bldg. # 7

Time: 9AM to 1PM—*Lunch Provided.*

The Exercise Scenario:

A truck has been seen driving around the east end and State Capitol Complex spraying white powder. It has not been determined exactly what the powder is, but out of caution, the Governor's Office and the Kanawha Charleston Health Department have directed the stand up of a Points of Dispensing (POD) at the Capitol Complex. The POD is a mass medication dispensing location where state employees can get appropriate medicines for themselves and their families against the potential biological contamination. **Role Players will be acting as state employees coming to get the medicine for themselves and their families.**

To register as a volunteer role player, contact Gina.L.namay@wv.gov.

You must register in order to participate.
